### Data Science Teams Become Clean-up Crews

"In 2016 'data scientists' will continue to have trouble doing their jobs and analyzing data because they will spend so much time trying to manage and cleanse it."

Kon Leong, CEO and Founder of ZL Technologies

### Everybody Finally Takes a Peek at Data Privacy

"Privacy issues will rise to the forefront of analytics efforts ... even if those efforts are using data generated purely from the business environment."

Kon Leong, CEO and Founder of ZL Technologies
