

E-MAIL Roundup

Apr 1, 2011

This article appears in the issue [April 2011 \[Volume 20, Issue 4\]](#)

OpenText

Email Management for Microsoft Exchange

Identify and capture messages that are useful or important; dispose of unimportant, low-value e-mail.

Recommind

Insite; Axcelerate eDiscovery

In-place assessment, culling and automated analytics for e-discovery.

Symantec

Enterprise Vault

Migrate older mail messages to archive with single-instance storage and compression, reducing storage requirements and relieving Exchange Server 2010.

X1 Technologies

Email Search

Find files or e-mail on your desktop and network-attached shares and removable media.

ZL Technologies

ZL Unified Archive

Archiving, e-discovery search and litigation support, retention management, compliance and storage optimization.

ZyLAB North America

E-mail Archiving Bundle

RMA plug-in for Microsoft Outlook stores full-text searchable e-mail.
